中台灣影視基地

少年Pi造浪池 | 7米深水池 | 16米隔音攝影棚

Life of Pi Wave Tank | 7-meter-deep pool | 16-meter-high sound stages

中台灣影視基地位於台灣台中，佔地共3.12公頃，具有少年Pi造浪池、7米深水池、3個挑高16米的攝影棚（為台灣最大的室內收音棚）、1.1公頃可搭景空地，將於2018年下半年度正式營運。

The Central Taiwan Film Studios is located in Taichung. In an area of 3.12 ha, there are the *Life of Pi* Wave Tank, a 7-meter-deep pool, three sound stages with 16-meter-high ceilings, and 1.1 ha of outdoor space, where temporary sets could be built. They will be the largest sound stages in Taiwan. The operation of the facility is scheduled to begin in the second half of 2018.

### 位置佳

BEST LOCATION

台灣位於亞、澳、美三洲的轉接點，距離中、港、韓、日、泰等大型製作基地可於2~4小時內抵達。台中位居台灣中部，1小時內可抵達台灣各地與國際機場，為南來北往交通樞紐。

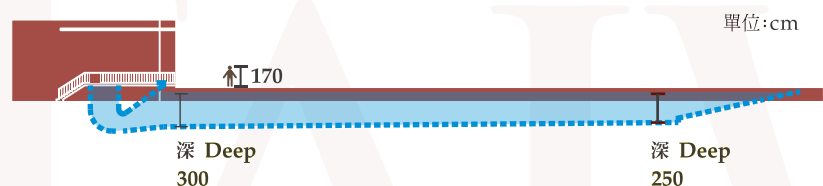

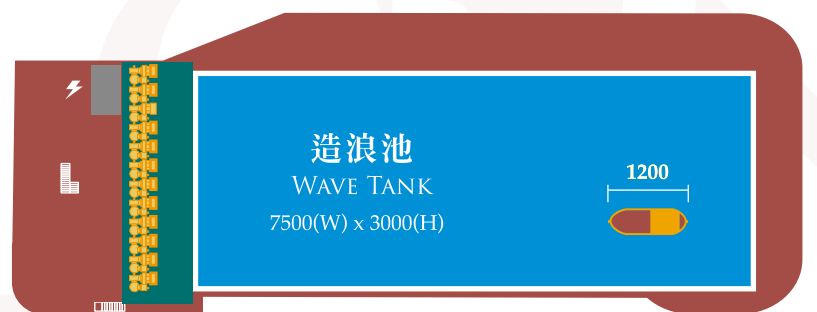

終年陽光普照、氣候穩定，百公里內具備都會、鄉村、漁港、山林、沙漠、斷崖等各式拍戲所需要的景色，且鄰近日月潭、玉山等知名景點，關於更多台灣場景與補助資訊，可參考中影協拍手冊。

Taiwan is strategically between Asia, Australia and America, and it takes only 2-4 hours to travel from Taiwan to the major film production sites in China, Hong Kong, Korea, Japan and Thailand. Located in a crucial position, Taichung is conveniently in the middle of Taiwan and less than an hour away from other major cities and all the international airports in the country.

Taichung enjoys the all-year-round sunshine and balmy climate. Within a radius of a hundred kilometers, one can reach a dynamic range of locations, including the urban as well as the rural landscapes, fishing ports, mountains, forest, desert and cliff. Moreover, Taichung is close to the famous tourist attractions, such as Sun Moon Lake and Mount Jade. For more information on the locations in Taiwan and the government incentives, please see the CMPC Production Support Introduction.

造浪池與深水池的組合，使中台灣影視基地成為全球少數可同時拍攝水中文戲與動作戲的影視基地，配備Motion Control、高格機、水下攝影系統，拍攝機動性與可能性都將大幅提升。

The combination of the wave tank and the deep pools makes the Central Taiwan Film Studios one of the few studios in the world that both drama and action scenes could be shot on the same location. The Motion Control, high-speed cameras and the underwater photography equipment significantly improve the mobility and the possibility of the shoot.

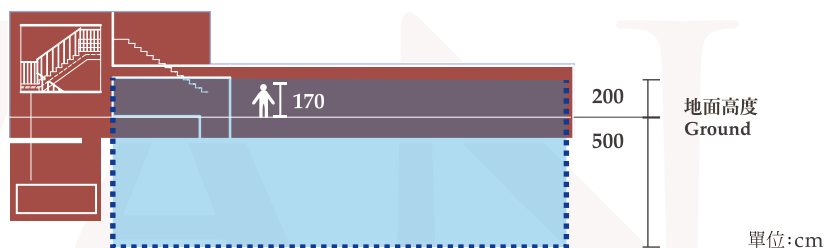

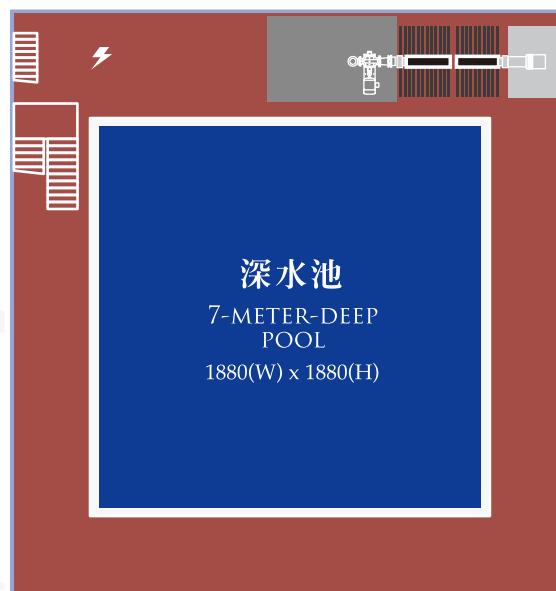

少年Pi造浪池  
LIFE OF Pi WAVE TANK

因《少年Pi的奇幻漂流》而打造出的造浪池，以原有規模尺寸搬移至中台灣影視基地後，維持當初打造的規模尺寸，由12部150HP馬力的真空造浪機所組成，在12個閥門都具備7段式的調整力道之下，可打造出上千種海浪效果。

The wave tank was built for the production of Ang Lee's *Life of Pi* in 2011. Now relocated to the Central Taiwan Film Studios, it maintains the original scale with updated functions. The twelve 150-hp vacuum wave makers with seven speeds in the pool can create multiple wave patterns to mimic a variety of ocean scenes.

WATER

7米深水池  
7-METER-DEEP POOL

地上2米、地下5米的深水池，為全台唯一拍攝專用深水池。池內的顏色可依照拍攝需求調整，更可依照戲劇設計，由專業工班搭設水中佈景，豐富水下拍攝效果與便利性。

With 2 meters above the ground and five meters underground, it is the only deep pool available for professional filming in Taiwan. The color of the pool can be adjusted accordingly, and even sets can be built underwater, enhancing the effects.

## 16米隔音攝影棚

### 16-METER-HIGH SOUND STAGES

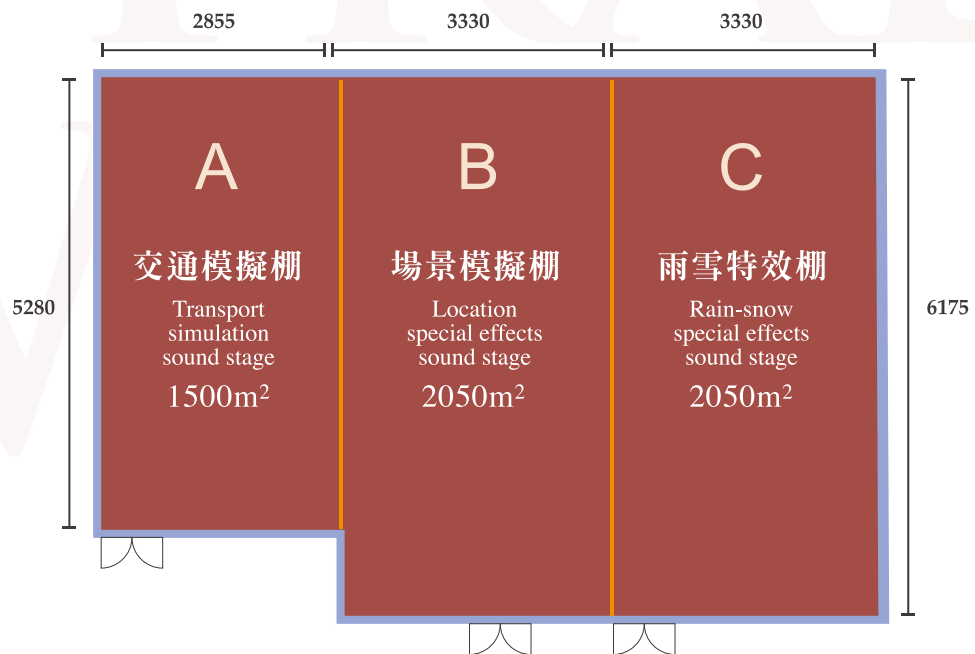

3個連棟攝影棚的棚內高度18米，實際可拍16米。

- **雨雪特效棚**：具有排水系統，引進造雪機及造雨機，可搭配特效牆面與各式佈景打造多元景色。
- **場景特效棚**：基地內配有專業搭景班與木工坊，因應客戶需求搭建專屬的場景風貌。
- **交通模擬棚**：以動力平台模擬船隻、火車、高鐵、汽車、飛機等各種交通工具的移動狀況。
- **戶外綠景區**：約1.1公頃，可搭建臨時建築。

Next to each other, the three sound stages have 18-meter-high ceilings, and the cameras could be raised up to 16 meters above the ground.

- **Rain-snow special effects sound stage**: installed with a drainage system, the snow and rain makers could create various effects against the changeable backgrounds.
- **Location special effects sound stage**: a team of professional painters and carpenters are there to help the clients build sets in a wide range of periods and places.
- **Transport simulation sound stage**: the power platform could simulate the movements of boats, trains, bullet trains, cars and planes.
- **Outdoor space**: temporary sets could be built in an area of 1.1 ha.
